Petikan kata-kata hikmah

"Saya ingin mengajak semua warga UTM untuk memegang falsafah kerja bersungguh-sungguh, genggam bara api, biar sampai jadi abu dan alang-alang menyeluk pekasam, biar sampai ke pangkal lengan. Kita bekerja untuk mencari rezeki yang halal, buat menyara isteri dan anak-anak. Kukuhkan iltizam, kuatkan semangat dan bulatkan tekad untuk membangunkan negara dalam sektor pendidikan tinggi. Sekarang adalah zaman bertindak dan bekerja. Bekerja dalam satu pasukan, umpama kelasi dan anak-anak kapal yang mengemudi sebuah bahtera menuju suatu destinasi. Kita perlu menyuburkan iltizam untuk memberi khidmat yang terbaik kepada universiti yang bersejarah ini. Kita perlu mewariskan sesuatu yang berharga untuk anak bangsa dan generasi masa depan. Jelasnya, universiti merupakan suatu tempat yang paling sesuai untuk merealisasikan dan memacu gagasan mensejahterakan rakyat dan alam sejagat atau *Rahmatal lil Alamin*"

Words of wisdom

"I extend an invitation to all those affiliated with UTM to embrace the principle of diligent effort, metaphorically symbolised by grasping the embers of a fire, allowing them to transform into ashes and bitterness, ultimately reaching the foundation of one's arm. Individuals engage in gainful employment to acquire a halal sustenance, which is in accordance with Islamic principles, with the intention of providing financial support to their spouse and offspring. Enhance the dedication, fortify the morale, and demonstrate determination to advance the nation in the realm of higher education. The present moment necessitates immediate action and diligent effort. Collaborate within a collective unit, such as sailors and crew members effectively navigating a vessel towards a predetermined objective. It is imperative that we cultivate and sustain our dedication to delivering exceptional service to this esteemed institution of higher learning. It is imperative that we transmit something of great worth to our offspring and subsequent cohorts. The individual elucidated that the university serves as the optimal setting for actualising and advancing the notion of fostering prosperity for both humanity and the universe, commonly referred to as *"Rahmatal lil Alamin"*
